📦 **Full GitHub Releases**	Source code, release logs & all APK versions	https://github.com/0103253075-rgb/focuslock/releases

🎯 2. Which Version Is Right For You?

🎓 PURE PHONE STUDY

Student Edition

For: Students studying for exams (UPSC, NEET, JEE, CFA, Finals) or reading in libraries without a laptop.

How it works: Zero setup required. Select 25m, 45m, or 60m right on your phone and tap Start. The screen turns pitch black with your harsh motivational discipline quote.

Setup: 100% on phone. No PC or Wi-Fi needed.

💻 LAPTOP COCKPIT

Creator Pro Edition

For: Developers, freelancers, designers, and office workers sitting at a laptop workstation all day.

How it works: Phone stays on your desk. You activate focus sessions, see live countdowns, and check battery levels directly from your laptop browser.

Setup: Pair once via your 4-digit Sync Code over the internet.

🚀 3. Step-by-Step Setup Walkthrough

A. Setting Up Student Edition (Phone-Only • 30 Seconds)

1. **Download & Install:** Tap the Student Edition APK link on your Android phone and install.
2. **Grant Screen Shield:** Tap *"1. Screen Shield (Required)"* and allow *"Display over other apps"* so FocusLock can draw the distraction shield.
3. **Choose Duration:** Tap **25m Pomodoro**, **45m Deep**, **60m Ultra**, or tap **Custom** to enter any number of minutes you want (e.g. 100m, 120m, 180m).
4. **Begin Lockdown:** Tap ⚡ **START FOCUS LOCKDOWN**. The phone locks pitch black until the timer reaches 00:00.

B. Setting Up Creator Pro Edition (Laptop + Phone • 1-Minute Pair)

1. **Open Laptop Studio:** On your laptop browser (Chrome, Safari, Edge), visit **https://focuslock-7pe7.onrender.com/**.
2. **Note Your Sync Code:** Look at the top bar for your unique 4-digit code (e.g. `5091`).
3. **Install Pro App:** Download and open FocusLock Creator Pro on your phone and grant the Screen Shield permission.
4. **Enter Sync Code:** Type your 4-digit code (e.g. `5091`) into the top input box.
5. **Verify Website URL:** The second box is pre-filled with `focuslock-7pe7.onrender.com`. If it is ever blank, simply paste **focuslock-7pe7.onrender.com**.
6. **Pair Instantly:** Tap ⚡ **PAIR & CONNECT TO LAPTOP**. The phone connects across the internet!
7. **Lock from Laptop:** Select your duration (25m, 45m, 60m, 90m, or click **Custom** for 100m+) and click **ACTIVATE SHIELD**. Your phone locks immediately.

🔒 4. Safety Guarantee: You Are Never Trapped

🚨 **Real-Life Emergency Controls:**

- **Emergency Master PIN (`884422`):** Tap anywhere on the locked black screen **5 times rapidly** to bring up the keypad. Enter **884422** to dismiss the shield and return to your home screen instantly.
- **Smart 2nd-Call Bypass Filter:** Normal 1st calls are muted so they don't break your focus. However, if any contact (parents, doctor, boss) calls a **second time within 5 minutes**, your phone automatically rings at full volume for safety.

🛡️ 5. Privacy, Permissions & What Happens to Your Data

We believe in 100% transparency. FocusLock does **NOT** collect, sell, or monitor your personal life. Here is the exact reason for every permission:

Permission	Why It Is Needed	Is Data Uploaded or Saved?
Display Over Other Apps ("Screen Shield")	Draws a pure AMOLED black layer over distracting apps (Instagram, YouTube, Reddit) during active focus blocks.	**NO.** It cannot record your screen, view your camera, or take screenshots. It only draws a black overlay.
Do Not Disturb (DND Access)	Silences pop-up notification sounds and vibration buzzes during active focus sessions.	**NO.** It cannot read the text or content of your private messages or notifications.
Emergency Call Screening	Checks if the same incoming phone number rings twice within 5 minutes to trigger the emergency bypass.	**NO.** Handled strictly inside phone local RAM. No contact books, call logs, or recordings are sent to any server.
Battery & Charging Status	Displays your phone's battery percentage on your laptop dashboard so you know when to plug it in.	Transmitted strictly in real-time to your own private session room and erased immediately after.

✅ **Zero-Tracking Guarantee:** No account creation required • No passwords stored • No advertising trackers • No analytics telemetry • Zero selling of user habits.
